

Resource Protection (water quality, natural & cultural resources, invasive species)

Givens	What we heard	Our ideas Based on Community Input
Boat Inspection	Restrict Boats with Ballast	Community Volunteer Stewards
Decontamination	Inspect all Water Craft	Adaptive Operation & Management
BOR Water Quality Monitoring	Restrict all 2-stroke Motors	Extensive Reporting & Tracking
Designated Fueling Area	Restrict Motorboats/Allow Motorboats	
Cultural Resources Sensitivity Training	Designate a Trail along Shoreline/Protect Artifacts	
Archaeological Monitoring	Quiet Lake/Balanced Use	
Restricted Public Access		
No Fires		
Public Education & Signage		
Law Enforcement		
Adherence to City, State, and Federal Laws		
Winter Wildlife Closure		
No Boats with Plumbing or Human Dwelling		
No Boats with Above-Water Exhaust		

Resource Protection

Question	Community Recommendations
In addition to the givens, how might we ensure protection of the natural & cultural resources?
