

Is an Asbestos Inspection Required?

Demolition

Asbestos inspection & state demolition permit required. Asbestos inspection must be conducted by a certified asbestos building inspector.

Definitions and Links:

Renovation - Altering in any way one or more components in or on a facility. Operations in which load-supporting structural members are wrecked or removed are demolitions. Examples of renovation work include to replacement or repair of mechanical ventilation systems, pipes, ceilings, walls, flooring (including floor tiles) and insulating materials. Renovation may also include the construction of additions or the modification of existing components where tie-ins, joints or other intersection may occur.

Demolition - The wrecking or removal of any load-supporting structural member of a facility together with any handling of debris related to the demolition, the intentional burning of any facility, or moving a facility from a permanent foundation.

Asbestos Consulting Firms & Asbestos Building Inspectors can be found at: <https://www.colorado.gov/cdphe/asbestos-consulting-firms>

Demolition notification application forms can be found under the forms tab at: <https://www.colorado.gov/cdphe/asbestos>

*** Some ACMs may only require notification or may be exempt from the regulation. Homeowners who do not intend to rent, sell or demolish their primary residence may have additional options. Please contact CDPHE for further details.
