NEWS RELEASE

Water rate decrease now reflected on resident's water bills

Durango, CO: Residents may have noticed that water bills were a little lower than usual starting the month of May, as a water rate decrease approved by city council at its March 15, 2022, meeting has now gone into effect.

The rate reduction is now saving the average residential customer \$6 a month, and the average commercial customer \$43 a month. The average monthly water bill is \$28 for residential customers, and \$130 for commercial users.

Along with the rate decrease, city council also eliminated duplex water rate classification, removed winter and summer rate differences.
