

Assembly Bill No. 1096

CHAPTER 568

An act to amend Sections 406, 12804.9, 21113, 21207.5, and 24016 of, and to add Sections 312.5 and 21213 to, the Vehicle Code, relating to vehicles.

[Approved by Governor October 07, 2015. Filed with Secretary of State, October 07, 2015.]

LEGISLATIVE COUNSEL'S DIGEST

AB 1096, Chiu. Vehicles: electric bicycles.

Existing law defines a “motorized bicycle” or a “moped” as a 2-wheeled or 3-wheeled device having fully operative pedals for propulsion by human power, or having no pedals if powered solely by electrical energy, and an automatic transmission and motor, as specified.

Existing law also defines a “motorized bicycle” as a device that has fully operative pedals for propulsion by human power and has an electric motor that meets specified requirements. Existing law requires a motorized bicycle, as described by this definition, to comply with specified equipment and manufacturing requirements. Existing law also imposes specified requirements relating to the operation of bicycles. A violation of the Vehicle Code is a crime.

This bill would delete the latter definition of a “motorized bicycle.” The bill would define an “electric bicycle” as a bicycle with fully operable pedals and an electric motor of less than 750 watts, and would create 3 classes of electric bicycles, as specified. The bill would require manufacturers or distributors of electric bicycles to affix a label to each electric bicycle that describes its classification number, top assisted speed, and motor wattage. The bill would require every electric bicycle manufacturer to certify that it complies with specified equipment and manufacturing requirements. The bill would also require an electric bicycle to operate in a manner so that the electric motor disengages or stops functioning when brakes are applied, or in a manner so that the release or activation of a switch or other mechanism disengages or stops the electric motor from functioning.

The bill would require a person riding an electric bicycle to comply with the above-described requirements relating to the operation of bicycles. The bill would prohibit persons under 16 years of age from operating a class 3 electric bicycle. The bill would also require persons operating, or riding upon, a class 3 electric bicycle to wear a helmet, as specified. The bill would prohibit the operation of a class 3 electric bicycle on specified paths, lanes, or trails, unless that operation is authorized by a local ordinance. The bill would also authorize a local authority or governing body to prohibit, by ordinance, the operation of class 1 or class 2 electric bicycles on specified paths or trails. The bill would prohibit a person from tampering with or modifying an electric bicycle to change its speed capability, unless he or she appropriately replaces the classification label. The bill would specify that a person operating an electric bicycle is not subject to financial responsibility, driver’s license, registration, or license plate requirements. The bill would also make conforming changes.

This bill would incorporate additional changes to Section 21113 of the Vehicle Code proposed by AB 604 that would become operative only if this bill and AB 604 are both chaptered, and this bill is chaptered last.

Because the bill would create new requirements regarding electric bicycles, the violation of which would be a crime, the bill would impose a state-mandated local program.

The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

(a) A “motorized bicycle” or “moped” is a two-wheeled or three-wheeled device having fully operative pedals for propulsion by human power, or having no pedals if powered solely by electrical energy, and an automatic transmission and a motor that produces less than 4 gross brake horsepower and is capable of propelling the device at a maximum speed of not more than 30 miles per hour on level ground.

(b) Every manufacturer of a motorized bicycle or moped, as defined in this section, shall provide a disclosure to buyers that advises buyers that their existing insurance policies may not provide coverage for these bicycles and

SEC. 3.

Section 12804.9 of the Vehicle Code is amended to read:

12804.9.

(a) (1) The examination shall include all of the following:

(A) A test of the applicant’s knowledge and understanding of the provisions of this code governing the operation of vehicles upon the highways.

(B) A test of the applicant’s ability to read and understand simple English used in highway traffic and directional signs.

(C) A test of the applicant’s understanding of traffic signs and signals, including the bikeway signs, markers, and traffic control devices established by the Department of Transportation.

(D) An actual demonstration of the applicant’s ability to exercise ordinary and reasonable control in operating a motor vehicle by driving it under the supervision of an examining officer. The applicant shall submit to an examination appropriate to the type of motor vehicle or combination of vehicles he or she desires a license to drive, except that the department may waive the driving test part of the examination for any applicant who submits a license issued by another state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico if the department verifies through any acknowledged national driver record data source that there are no stops, holds, or other impediments to its issuance. The examining officer may request to see evidence of financial responsibility for the vehicle prior to supervising the demonstration of the applicant’s ability to operate the vehicle. The examining officer may refuse to examine an applicant who is unable to provide proof of financial responsibility for the vehicle, unless proof of financial responsibility is not required by this code.

(E) A test of the hearing and eyesight of the applicant, and of other matters that may be necessary to determine the applicant’s mental and physical fitness to operate a motor vehicle upon the highways, and whether any grounds exist for refusal of a license under this code.

(2) (A) Before a class A or class B driver’s license, or class C driver’s license with a commercial endorsement, may be issued or renewed, the applicant shall have in his or her driver record a valid report of a medical examination of the applicant given not more than two years prior to the date of the application by a health care professional. As used in this paragraph, “health care professional” means a person who is licensed, certified, or registered in accordance with applicable state laws and regulations to practice medicine and perform physical examinations in the United States. Health care professionals are doctors of medicine, doctors of osteopathy, physician assistants, and registered advanced practice nurses, or doctors of chiropractic who are clinically competent to perform the medical examination presently required of motor carrier drivers by the United States

Department of Transportation. The report shall be on a form approved by the department. In establishing the requirements, consideration may be given to the standards presently required of motor carrier drivers by the Federal Motor Carrier Safety Administration.

(B) The department may accept a federal waiver of one or more physical qualification standards if the waiver is accompanied by a report of a nonqualifying medical examination for a class A or class B driver's license, or class C driver's license with a commercial endorsement, pursuant to Section 391.41(a)(3)(ii) of Subpart E of Part 391 of Title 49 of the Code of Federal Regulations.

(3) A physical defect of the applicant that, in the opinion of the department, is compensated for to ensure safe driving ability, shall not prevent the issuance of a license to the applicant.

(g) The department may accept a certificate of satisfactory completion of a novice motorcyclist training program approved by the commissioner pursuant to Section 2932 in lieu of a driving test on class M1 or M2 applications, if the applicant has met the other examination requirements for the license for which he or she is applying. The department shall review and approve the written and driving test used by a program to determine whether the program may issue a certificate of completion.
