

Colorado Municipal Records Retention Schedule

Schedule last updated June 2016; this file was last updated on 10/20/2020

The City of Durango adopted the **Colorado Model Municipal Records Retention Schedule** by Resolution R-2007-0025 of the Durango City Council on 6/19/2007. It is the primary document that tells us the minimum retention for a certain type of City record. Durango is one of approximately 200 Colorado municipalities that adopted this schedule. (This link lists the municipalities that adopted it: <https://www.colorado.gov/pacific/archives/approved-municipalities>)

We produced this single pdf file from the individual files online as of 11/16/2016 at <https://www.colorado.gov/pacific/archives/municipal-records-retention-manual>
This same file is available on the City's website at the [City Clerk's FAQ page](#).

Here is your basic orientation to this schedule:

- ❖ Overall **table of contents**: PDF pages 2 through 11. If you click on the blue hyperlinks you will be viewing each individual schedule separately, on the Colorado.gov website.
- ❖ The actual **retention schedules**: PDF pages 18 through 115.
- ❖ The **index to the schedules**: PDF pages 130 through 159.

Note: This most current version of the Schedule has a wholly different numbering scheme than the original numbering system. Sections in this new system begin with the number 5 and progress in multiples of 5 throughout. According to an email 11/14/2016 from paul.levit@state.co.us on behalf of; ArchivesRM - DPA, DPA dpa_archivesrm@state.co.us, "...the numbering change [probably] took place in 2011 when the ten-year comprehensive review was completed. As far as the missing schedules [1-4, 6-9, 11-14, 16-19, 21-24, 26-29, 31-34, 36-39, etc.], under the current numbering system those schedules do not exist."

ACKNOWLEDGEMENTS

The *Colorado Municipal Records Retention Schedule* was made possible through a cooperative venture. A group of Weld County, Colorado municipalities recognized the need for a comprehensive records retention schedule that could be used by any small Colorado municipality and joined forces to fund and support the project.

Funding for the project was provided by 11 Weld County municipalities: the Town of Eaton, the City of Fort Lupton, the Town of Garden City, the Town of Gilcrest, the City of Greeley, the Town of Hudson, the Town of Johnstown, the Town of Keenesburg, the Town of Mead, the Town of Milliken and the Town of Windsor.

The following municipal clerks and their municipalities contributed to the success of the year-long project: **Chris Bagley**, Town of Eaton; **Linda Salas**, Town of Erie; **Barbara Rodgers**, City of Fort Lupton; **Janice Walter**, Town of Garden City; **Linda Smith**, Town of Gilcrest; **Betsy Holder**, City of Greeley; **Judy Larson**, Town of Hudson; **Diana Seele**, Town of Johnstown; **Cheryl Jesser**, Town of Keenesburg; **Judy Hegwood**, Town of Mead; **Nanette Fornof**, Town of Milliken (project coordinator for the municipalities); and **Cathy Kennedy**, Town of Windsor. Other staff members from the Towns of Milliken and Windsor and the City of Greeley participated in benchmark records inventories and interviews conducted by the project consultant.

The project would not have been possible without the continued support, cooperation and assistance of **Terry Ketelsen**, State Archivist for the State of Colorado and **Karen Zoltenko**, Deputy State Archivist for the State of Colorado. **Don Sandoval**, Regional Manager for the State of Colorado, Department of Local Affairs, Office of Field Services, also provided continuing encouragement and advice throughout the project. **Tony Adams, CRM**, Director of the Wyoming State Archives and **Carol Intlekofer**, City Clerk, City of Cheyenne, Wyoming, provided valuable assistance during the initial stages of the project. **Chuck Schiell, CRM**, records management consultant for the Town of Erie, and **Betsy Holder** and **Russell Lenhart** of the Greeley City Clerk's Office, are owed a special debt of gratitude for their detailed reviews of the preliminary draft of the Model Municipal Retention Schedule and their helpful suggestions.

This document would not have been possible without the earlier work accomplished by the Colorado Municipal Clerks' Association and numerous municipal clerks who developed in 1992 and updated in 1999 the *Guidelines for the Retention of Municipal Records in Colorado*, which established a solid foundation for creation of a Municipal Records retention schedule.

The *Colorado Municipal Records Retention Schedule* became a reality through the dedicated efforts of **Molly J. Davis, CRM, CMC**, records management consultant specializing in local government records in Colorado.

A comprehensive ten-year review of the Colorado Municipal Records Retention Schedule was completed in 2010—2011 through a collaborative effort of the Colorado State Archives and the Colorado Municipal Clerks Association Records Management Committee. Project funding was provided by the Colorado State Archives and the Colorado Municipal Clerks Association. The individuals who participated in this effort were: Terry Ketelsen (Colorado State Archivist), Erin McDaniel (Colorado State Archives), Molly J. Davis (consultant), Kerry Bush (Englewood), Melinda Catapano (Grand Junction), Nanette Fornof (Frederick), Leighsa Grommon (Berthoud), Judy Hegwood (Firestone), Leah Heneger (Platteville), Betsy Holder (Greeley), Lisa Horton (Aurora), Russell Lenhart (Greeley), Kimber Liss (Centennial), Tim Paran (Denver), Daryl Payne (Pueblo), Cat Petersen (Winter Park), Patricia Putfark (Centennial), Sara Rusher (Longmont), Barbara Setterlind (Centennial), Susan Soilein (Parker), Sandi Sugden (Mead), Jewel Traudt (Englewood), and Mike Wolfe (Vail). Special thanks is also given to those who submitted comments and questions during the update process.

HOW TO USE THE COLORADO MUNICIPAL RECORDS RETENTION SCHEDULE

Go to the index first!

Terminology

Terminology that may be unfamiliar to some users is explained in *Appendix B – Glossary*.

Numbering System

The *Colorado Municipal Records Retention Schedule* is organized in individual schedules that group related records according to municipal functions. Each schedule is assigned a reference number, and an item identification number is assigned to each records title listed (i.e., 05.010 means Schedule 5, Item 010). The schedule and item identification numbers are listed with the individual records titles in the index – ***the key to locating records titles in the schedules.***

Record Titles and Description

Because the records titles used may not reflect the exact records titles used by everyone, the Retention Schedule provides a short paragraph that describes the use and typical contents of each records series and sub-series.

Retention Periods

Retention periods are based on legal requirements and/or on common usage and industry standards to meet typical administrative, operational or reference requirements. The retention time period indicates the minimum length of time that the **record copy** should be retained before disposal can take place. Typically, some kind of approval process is in place to authorize the destruction of records in accordance with the Records Retention Schedule. Evaluate records for continuing legal, fiscal, administrative or historical value and determine whether they are the subject of any legal holds before proceeding with the authorized destruction. It is permissible to either wait to destroy obsolete records until the end of the year in which they become eligible for destruction or to go ahead and destroy records at the end of the retention period. The municipality may dispose of duplicates in accordance with the following guidelines:

DUPLICATE COPIES CREATED FOR ADMINISTRATIVE PURPOSES

Retain for 1 year and then destroy.

DUPLICATE COPIES CREATED FOR CONVENIENCE OR REFERENCE

Retain until no longer needed for reference or 1 year, whichever is first, and then destroy.

Retain duplicated copies until no longer needed but not longer than the record copy.

CRS 6-17-104 provides a default retention period of three years for records that state law requires to be retained when no retention period is otherwise specified.

The retention period applies to the information contained within the record, regardless of the physical format of the record (paper, microfilm, computer disk or tape, optical disk, etc.).

Guidelines for identification and handling of some non-records are discussed in *Appendix A – Non-Records*.

Trigger Dates

Trigger dates are included in retention periods whenever possible. A *trigger date* is the date of an event, action or cut-off point that begins the countdown to the end of the retention period. Examples of a trigger date in a retention period are highlighted in the following: "3 years ***after expiration of the warranty***" and "1 year ***after the tap is disconnected.***" When a trigger date is not specified, the countdown to the end of the retention period begins on the date the file is closed, the date the file no longer has any administrative or reference value, or the date of the newest document in the file.

Another Records Retention Resource

In 2010, The Colorado Municipal Clerks Association published *Managing Municipal Records in Colorado: A RIM-ERM Toolkit* (known as the "Toolkit"). Colorado municipalities may find that publication to be of value in establishing and maintaining a viable records and information program, which includes adopting a records retention schedule. It is available through the CMCA Records Management Committee (contact information is listed on the CMCA website at www.cmca.gen.co.us).

PREFACE

The *Colorado Municipal Records Retention Schedule* was originally prepared by a municipal records management consultant on behalf of 11 Weld County municipalities. It is intended to provide a comprehensive records retention schedule for most records that are typically kept by any small, growing Colorado municipality and is being expanded over time to cover specialized records retained by larger municipalities. The document may list records that an individual municipality does not currently have but that it may have in the future. The municipality should, however, request approval to follow the entire *Colorado Municipal Records Retention Schedule* so that provisions are in place for future growth in records holdings.

The *Colorado Municipal Records Retention Schedule* should be reviewed and updated periodically to ensure that appropriate updates are made. An *Update Request Form* is included in *Appendix D*.

Subsequent to approval, the records retention schedule will apply to the record copy, regardless of how it is stored (electronic, microfilm, digital image, paper, audio or video recording, etc.).

If the record copy of a permanent record is stored in electronic format, carefully determine that the storage system is nonproprietary and whether there is a capability to migrate these records to the next generation of technology.

Each municipality that receives approval to follow the *Colorado Municipal Records Retention Schedule* should add notations regarding any local provisions affecting the retention periods of its records. To request approval to follow the *Colorado Municipal Records Retention Schedule*, complete the approval request form included in *Appendix C – Approval Request Form*.

IMPORTANT:

THIS DOCUMENT DOES NOT PROVIDE LEGAL AUTHORITY OR AUTHORIZATION FOR DESTRUCTION OF MUNICIPAL RECORDS BY ANY MUNICIPALITY UNTIL IT IS APPROVED FOR USE FOR THAT MUNICIPALITY BY THE COLORADO STATE ARCHIVES.

NO RECORD SHOULD BE DESTROYED IF IT IS PERTINENT TO ANY CURRENT, PENDING OR ANTICIPATED AUDIT, INVESTIGATION OR LEGAL PROCEEDING.

**The actual retention schedules begin on the next page, with
Schedule 5: Building and Structure Records.**

SCHEDULE NO. 55

**INFORMATION TECHNOLOGY AND
COMMUNICATION SYSTEMS RECORDS**

General Description: Records relating to computer, information technology and communication systems operations.

No record may be destroyed under this Retention Schedule if it is pertinent to any current, pending or anticipated investigation, audit or legal proceeding. **The minimum retention periods specified in this schedule apply to the information contained within the record copy, regardless of the physical format of the record copy (paper, microfilm, electronic).** Each municipality must decide on the physical format for each type of record, ensuring authenticity, readability and accessibility for the entire retention period. **Duplicate Copies:** Retain duplicated copies until no longer needed but not longer than the record copy.

**** Electronic Records in General:** Retention is based on content, retain for the retention period for specific type of Record. See also, Appendix G – Preservation of Records.
<Amended 8/16>

55.010 COMMUNICATION AND TECHNOLOGY SYSTEMS RECORDS

Records relating to the installation, operation, and maintenance of communication and computer systems and software. Also see 75.030 B., Licenses, Permits, Supporting Documentation – Issued to the Municipality.

A. Access Control and Security Records

Records required to establish and maintain computer security, including: access requests, authorizations, encryption keys, journals, password documentation, reports, system access logs and other access control records.

1. System Access Logs

Retention: 6 months

2. All Other Access Control/Security Records

Retention: Delete when no longer administratively useful

B. Computer Audit Reports

Completed to determine compliance with policies relating to software and electronic records management.

Retention: Until subsequent audit is completed

C. Computer Backup Records

1. Computer Backup Documentation

Documentation related to how and when regular computer records backups are completed.

Retention: 1 year after superseded or obsolete

2. Computer Contingency Backup

Records recorded on electronic media consisting of copies of programs or instructions necessary to retrieve copied information and data identical in physical format to a master file or database and retained in case the master file or database is damaged or inadvertently erased.

Retention: Retain off-site until replaced or superseded

D. Computer Hardware and Software Documentation

Written documentation necessary to operate computer equipment or programs and to access or retrieve stored information or data. Documentation may be in paper or electronic formats and may include: flowcharts, hardware specifications, maintenance requirements, operation and user manuals, system change records, records of rights to use software, source codes, etc.

Retention: Until computer equipment or software is no longer needed to retrieve or store data

E. Computer System Maintenance Records

Documentation of maintenance of computer systems and components needed to ensure compliance with warranties or service contracts, schedule regular maintenance and diagnose system or component problems. Includes: component maintenance records, computer equipment inventories, failure logs, hardware performance reports, invoices (copies), maintenance contracts (copies), warranties, etc.

Retention: Life of system

F. Computer System Program Records

Documentation pertaining to development, installation, modification, troubleshooting, operation and removal of software from computer systems; records required to plan, develop, operate, maintain and use electronic records; and technical specifications, file specifications, code books, record layouts, flowcharts, job control language, operating instructions, user guides, system overviews, output specifications, migration plans and other records pertaining to systems operations.

Retention: Until superseded or no longer needed to retrieve or read data and information that is stored electronically

G. Computer System Test Records

Electronic files or reports created in the monitoring and testing of system quality and performance, as well as related documents for the electronic files/records.

Retention: Delete or destroy when no longer administratively useful

H. Network and Fiber Optics Records

Documentation of the wiring of the computer network system, including blueprints, diagrams and drawings of layout and installations of fiber optics, computer networks, cables, computer equipment connections and similar documentation.

Retention: Until superseded

I. System Usage Records

Electronic files created to monitor system usage, including *call detail and telephone usage records*, log-in files, audit trail files, cost-back files used to assess charges for system use, system-created or vendor-originated logs documenting various aspects of information technology systems operations. See also 75.030 B., *Licenses, Permits, Supporting Documentation – Issued to the Municipality*.

Retention: Until system capacity is exceeded

J. User Data – Communication Systems

Includes the following types of electronic data: cap codes, electronic records of users, extension and pager numbers, service providers, VOIP user records, etc.

Retention: Until superseded

55.020 Reserved

55.030 DISASTER PREPAREDNESS AND RECOVERY PLANS – IT

Documents the protection and reestablishment of data processing services and equipment in case of a disaster; includes: checklists, emergency contact information and procedures.

Retention: Until superseded by revised plan

55.040 Reserved

55.050 ELECTRONICALLY STORED INFORMATION (ESI) DATA MAPS

Diagrams of computer systems and associated narrative information explaining the locations and context of the information stored within the computer systems, used for electronic discovery purposes.

Retention: Until superseded

55.060 PROJECT RECORDS – INFORMATION TECHNOLOGY AND COMMUNICATION SYSTEMS

Project records relating to the planning, development, design, selection, acquisition, installation, management, modification, conversion, upgrade and replacement of communications, computer and information systems technology; project files may include: analyses, assessments, evaluations, reports and studies; correspondence and project notes; project charters, plans, planning and development records, project team and vendor meeting records; user requirements, specifications, drawings, standards, architecture and design; quality assurance testing reports, statistics and coverage requirements; issues logs; and other project records and documentation.

A. Implemented Systems

Retention: Until superseded

B. Systems not Implemented

Retention: 3 years

55.070 TELEVISION SYSTEM RECORDS – MUNICIPALLY OPERATED

A Programming Records

Scheduling and programming records for the television system.

Retention: 2 years

B. Television System Records

Records relating to the operation and maintenance of the television system technology. See also 55.010.C, Licenses – Communication Systems

Retention: Life of system + 1 year

55.080 WEBSITE AND INTRANET RECORDS

A group of World Wide Web or internal web pages containing hyperlinks to each other and made available online for responding to public inquiries and providing information.

A. Access Reports and Use Tracking Logs – Website and Intranet

Reports tracking hits to the website or intranet by internal and external sources.

Retention: 2 years

B. Development and Evolution Records – Web Pages

Documentation of development and changes to the website or intranet web pages.

1. Web Pages and Related Scripts – Internet and Extranet – Home Pages and Indexes

Retention: 10 years for superseded pages and 2 years for informational only pages

2. Intranet Web Pages Designed for Internal Access to Information

Retention: Delete when no longer useful

C. Page Design Records – Web Pages

Style guide for web page design.

Retention: Until superseded or until no longer needed for reference

*** CMCA Records Committee will be re-examining the retention of websites.*

SCHEDULE NO. 60

INFRASTRUCTURE RECORDS

General Description: Records pertaining to basic infrastructure and underlying public works services and systems.

*No record may be destroyed under this Retention Schedule if it is pertinent to any current, pending or anticipated investigation, audit or legal proceeding. **The minimum retention periods specified in this schedule apply to the information contained within the record copy, regardless of the physical format of the record copy (paper, microfilm, electronic).** Each municipality must decide on the physical format for each type of record, ensuring authenticity, readability and accessibility for the entire retention period. **Duplicate Copies:** Retain duplicated copies until no longer needed but not longer than the record copy.*

60.010 ELECTRIC SERVICE

Records relating to the provision of electric service. Note: NERC refers to the North American Electric Reliability Council.

A. Critical Asset Records

Lists of identified critical assets and documentation of the risk-based assessment methodology used to determine critical assets.

Retention: 2 years, in addition to records of last audit [NERC CIP-002-3]

B. Dispatch and Scheduling Records

1. Daily Dispatch Logs

Retention: 3 years [NERC IRO-004-2]

2. Disturbance Records

Records relating to outages, surges, etc.

a. Disturbance Data and Audits

Retention: 3 years [NERC PRC-018-1]

b. Final Disturbance Report

Retention: 7 years, then evaluate for continuing value

3. Operating Procedures

Written operating procedures for real-time actions to be taken during normal and emergency conditions to ensure stable and reliable operation of bulk electric system.

Retention: Permanent [NERC PER-001-0.1]

4. Special or Periodic Reports and Risk Assessment on Service Interruptions

Retention: 3 years [NERC IRO-004-2]

5. System Operating Logs

Retention: 3 years [NERC IRO-004-2]

C. Energy Efficiency Program Records

Records relating to services provided to customers under energy efficiency or conservation programs; includes applications, agreements, review reports, correspondence, data collection records, spreadsheets, etc.

Retention: 4 years after expiration [18 CFR 125.3.29]

D. Engineering Records and Supporting Documentation

Final as-built drawings, system schematics, shop drawings, diagrams showing layouts, designs, plans, patterns and configuration for systems and equipment; engineering studies, plans and reports; maps, diagrams, profiles, photographs, drawings and supporting documentation showing locations of utility production, transmission and distribution facilities as constructed or as proposed; soil condition reports; survey field books documenting survey methodologies and activities; topographic surveys; and similar records.

Retention: Life of facility [18 CFR 125.2, 18 CFR 125.3.21]

E. Maintenance Work Orders

Cost estimates, work order sheets, summaries of expenditures on maintenance, job orders and clearances.

Retention: 5 years [18 CFR 125.3.15]

F. Power System Accounting and Billing Records

1. Deviation Reports – Summaries of System Changes

Retention: 3 years [NERC IRO-004-2]

2. OASIS (Open Access Same-Time Information System) Records

a. Audit Data

Data relating to OASIS postings for available transmission capability (ATC) and total transmission capability (TTC), agreed-upon transmission service transactions, agreed-upon ancillary service transactions, denied requests for transmission service and curtailed or interrupted transactions.

Retention: Must be made publicly available upon request for download for 5 years from date posted, in same electronic form used when originally posted on OASIS [18 CFR 37.7(b)]

b. Data Used to Calculate ATC and TTC

Calculated for any constrained posted paths, including limiting element(s) and the cause of the limit; e.g., thermal, voltage, stability.

Retention: 6 months [18 CFR 37.6(b)(2)(ii), NERC IRO-004-2]

3. Surplus Sales Records

Retention: 3 years [NERC IRO-004-2]

4. System Control and Data Acquisition (SCADA) Records

a. Data – Hourly and One-Minute

Retention: 4 months

b. Disturbance Records – Outages, Surges, etc.

1) Final Disturbance Reports

Retention: 7 years, then evaluate for continuing value

2) Preliminary Information

Request forms, notifications, investigations, preliminary disturbance reports, etc.

Retention: Until final disturbance report is completed

3) System Disturbance History (Summary)

Retention: Permanent

G. Production Records

1. Boiler Tube Failure Report

Retention: 3 years [18 CFR 125.3 13.1(a)]

2. Gauge Reading Reports

Retention: 2 years [18 CFR 125.3 13.1(f)]

3. Generation and Output Logs and Supporting Data

Retention: 3 years [18 CFR 125.3 13.1(b)]

4. Generating High-Tension and Low-Tension Load Records

Retention: 3 years [18 CFR 125.3 13.1(d)]

5. Load Curves, Temperature Logs, Coal and Water Logs

Retention: 3 years [18 CFR 125.3 13.1(d)(e), NERC IRO-004-2]

6. Recording Implementation Charts

Retention: 1 year [18 CFR 125.3 13.1(g)]

7. Station and System Generation Reports and Clearance Logs (Steam and Other)

Retention: 6 years [18 CFR 125.3 13.1(c)]

H. Regulatory Reports

Reports to federal and state regulatory commissions, including annual financial, operating and statistical reports.

Retention: 5 years [18 CFR 125.3 41]

I. System Planning Records

1. Emergency Operations Plans and Supporting Documentation

Emergency load reduction plans and other plans to address insufficient generating capacity, transmission system, load shedding, system restoration, mitigation of operating emergencies, training programs, restoration plans, testing of communications and other aspects of the plans, verification results for the current approved restoration plan, implementation strategies for disturbances, resynchronization data, records of participation in all requested drills, exercises or simulations, backstart resource agreements, etc.

Retention: 3 years and until completion of compliance audit [NERC EOP-001-2, NERC EOP-005-2]

2. Reliability Impact Assessments, System Studies and Supporting Documentation

System studies and assessments of new facilities and connections on the interconnected transmission systems (potential interface and other operating limits; i.e., overloaded transmission lines and transformers, voltage and stability limits) ensuring that bulk electric system can be operated reliably in anticipated normal and contingency event conditions; data needed for system studies and reliability assessments; critical facility status, load, generation, operating reserve projections, known interchange transactions, transmission data, generation data, balancing authority demand, area control error and frequency, etc.; action plans for reconfiguration of transmission system, re-dispatching of generation, reduction or curtailment of interchange transactions reducing load to return transmission loading to acceptable sols or irols.

Retention: 3 years [NERC IRO-004-2, NERC FAC-002-1]

3. System Planning Studies

Specific network impact studies performed for customers, includes listings of system planning studies posed on OASIS.

Retention: 5 years [18 CFR 37.6(b)(2)(iii), NERC FAC-002-1]

J. Transmission and Distribution Records

Substation and transmission equipment and operation records, including maintenance, operation, inspection and testing records for substations and the transmission system.

1. Equipment History Records

Maintenance histories, operation, inspection and testing records for batteries, gas breakers, hot sticks and grounds, insulators, oil breakers, relays and similar equipment; includes transformer inspections, oil tests, etc.

Retention: 5 years

2. Exception Reports

Apparatus failure reports, interruption logs and reports, transmission line trouble reports, etc.

Retention: 6 years

3. Lightning and Storm Data

Retention: Until no longer needed for reference

4. Meter Change-Out Reports

Received from substation crews when they work on meters.

Retention: 3 years [NERC FAC-002-1, NERC IRO-004-2, NERC PRC-005-1]

5. PCB Transformer Records

a. PCB Disposal Logs

Retention: At least 3 years after facility ceases using or storing PCBs [40 CFR 761.180]

b. PCB Spill Cleanup and Decontamination Records

Retention: 5 years [40 CFR 761.125(b)(3)]

c. PCB Transformer Inspection and Maintenance History

Retention: 3 years after disposal [40 CFR 761.30(a)(1)(xii)]

6. Pole Tower and Transformer History Records

Retention: Life of pole, tower or transformer [Transformers: 18 CFR 125.2 14(c)]

7. Relay Settings for Substations

Documentation of types, settings, input and output, substation location, etc.

Retention: Until superseded

8. Substation and Transmission Line Logs

Retention: 3 years [18 CFR 125.3 14(a)]

9. Substation Compliance Reports

Annual NERC reports – general inspection and operating tests.

Retention: 3 years

10. Switching Records (Substation)

Retention: 3 years [NERC IRO-004-2]

11. System Operator's Daily Logs and Reports of Operation

Retention: 3 years [18 CFR 125.3 14(b)]

12. Vegetation Management Records

Quarterly program reports and tree trimming around transmission lines and substations.

Retention: 5 years [NERC FAC-003-1]

60.020 LOCATE REQUESTS

Records of utility and infrastructure locate requests.

Retention: 90 days after locate is completed or determined to be responsibility of another jurisdiction

60.030 SOLID WASTE MANAGEMENT

Records pertaining to landfills, recycling centers and solid waste management.

A. Dump or Trip Tickets

Receipts for loads hauled to landfills or recycling centers.

Retention: 3 years

B. Landfill Locations

Records documenting the locations of current and past landfills and dumps.

Retention: Permanent

C. Landfill and Recycling Operations [Reserved]

60.040 STORMWATER DRAINAGE SYSTEM RECORDS

Records relating to the management of stormwater run-off and drainage, flooding and storm drainage basins.

A. Basin, Floodway and Flooding Records

Records documenting the existence of designated and recognized stormwater basins and floodways, including maps and drawings depicting locations, FEMA flood insurance rate maps and records documenting the locations, extent and levels of flooding and mitigation efforts.

Retention: Permanent

B. Weather Observation Records

Data and reports relating to weather conditions impacting the stormwater system.

Retention: Permanent for compilations and 5 years for raw data

C. Wetlands Management

Records relating to protection and management of wetlands on municipal property or rights-of-way.

Retention: Permanent for preserved wetlands or 30 years after removal and fill

60.050 STREET AND TRAFFIC OPERATIONS RECORDS

Records documenting the ongoing street system and traffic flow operations.

A. Asphalt Testing Records

Records relating to asphalt testing; may include asphalt samples and analytical reports.

Retention: 5 years

B. Bridge Inspections and Maintenance

Records of bridge inspections, inventory, changes to bridges, maintenance and summary reports to the State or other agencies. [23 CFR 650.305, 23 CFR 650.311]

Retention: 2 years after bridge is removed from service

C. Event Records – Traffic Impacts

Records documenting preparation for and implementation of traffic changes related to special events such as parades, motorcades and demonstrations, including street closures, traffic rerouting, barricades, signal timing changes and other similar variations.

Retention: 2 years after event

D. High Accident Locations

Records documenting accidents at locations that have a relatively high accident rate.

Retention: 6 years

E. Naming and Renaming of Streets

Records relating to naming and changes of names of streets and roadways.

Retention: Permanent

F. Street Address Number Records

Records pertaining to street closings, assignment and alteration of street names and house numbers, and similar records providing official control of the naming and numbering of streets and addresses.

Retention: Permanent

G. Street Cleaning and Sweeping Records

Retention: 3 years

H. Street Engineering Records

Records documenting the layout and planning of streets, intersections and sidewalks, establishment of grades, street and intersection design and alignment, benchmarks and monumentation, street and drainage problem histories and similar records of long-term significance.

Retention: Permanent

I. Street System Records

Documentation filed on or before December 31, 1953, with the State Department of Transportation certifying the total mileage of streets in the street system, certification of adoption and a map of the arterial street system, and documentation of subsequent changes in total mileage and arterial mileage shown in an annual report. [CRS 43-2-125 and 43-2-132]

Retention: Permanent

J. Traffic Congestion Monitoring Records

Records relating to scheduled or random traffic counts and traffic congestion monitoring, including automated or manual traffic counts and video recordings of traffic flow.

Retention: 6 years

K. Traffic Marking, Timing and Signalization Files

Records and data documenting traffic signal timing, traffic marking and signalization and construction zone, crosswalk parking and no parking zones, snow route, speed zone and truck route designations.

Retention: 2 years after superseded

L. Weather Observation Records

Data and reports relating to weather conditions impacting street and traffic operations.

Retention: Permanent for compilations and 5 years for raw data

60.060 TRANSPORTATION SYSTEM RECORDS

A. Airport Operations Records [Reserved]

B. Railroad Systems Records

Records pertaining to railroad systems, routes, regulations and rights-of-way.

Retention: Permanent

C. Transportation Services Records

Records pertaining to the overall operation of transportation systems that serve residents, such as airline, light rail, taxicab service, bus system and paratransit service; includes municipal approvals for PUC licenses, route maps and similar records relating to the operation of the service.

Retention: 6 years

60.070 VACATIONS – STREET, ALLEY AND RIGHT-OF-WAY

Records pertaining to the formal abandonment or vacation of previously dedicated streets, alleys and public rights-of-way or easements.

Retention: Permanent

60.080 WATER AND SEWER DISTRIBUTION AND STORAGE SYSTEM RECORDS

Records relating to the operation of the water and sewer distribution and storage systems.

A. Cross-Connection Control Survey Records

Documentation of monitoring of potential or actual water system health hazards from pollution entering water pipes from other pipes, including address, description of protection, corrections made, etc.

Retention: 1 year after disconnection or 10 years, whichever is later

B. Sewer Inspection and Testing Records

Records of inspections and testing to locate problems and defects so that corrective measures can be taken.

1. Sewer Test Records

Documentation of smoke, X-ray and other tests undertaken to verify hookup to main sewer lines, check condition of pipes or determine effectiveness of backflow prevention devices.

Retention: 5 years after completion of test

2. Video Inspection Records

Records of video inspections to locate problems and defects so that corrective measures can be taken.

Retention: Until after next video inspection, then evaluate prior to destruction of records to determine ongoing value

C. Tap Permits and Connection Records

Records regarding the application for and issuance of water and sewer tap permits and connections between specific properties and the utility systems, including those for inside and outside users.

Retention: 2 years after disconnection

1. Disconnection Records

Retention: Permanent

D. Valve Records

Records documenting installation, locations and maintenance of valves in the water and sewer systems.

1. Locations

Retention: Permanent

2. Maintenance and Repair

Retention: 2 years

3. Specifications

Retention: Until valve is permanently removed from service

E. Water Consumption Reports

Compilations of statistics documenting daily water consumption.

1. Annual Reports

Retention: Permanent

2. Information Summarized in Annual Reports

Retention: 2 years

F. Water Distribution and Production System Records

1. Analysis of System

Retention: 3 years

2. Reports – Distribution and Production Systems

Retention: Permanent

3. Water Line Maintenance and Repair Records

Documentation of maintenance and repair of water lines.

a. Records Requiring Engineering Stamp

Retention: 2 years after water line permanently removed from service

b. Other Records

Retention: 2 years

4. Water Pressure Measurements

Retention: 6 years

5. Water Storage Inspection Reports

Retention: 6 years

6. Water System Inspection and Testing Records

a. Video Inspection Records

Records of video inspections to locate problems and defects so that corrective measures can be taken.

Retention: Until superseded, replaced or revised, then evaluate prior to destruction of records to determine ongoing value

b. Water System Test Records

Documentation of tests undertaken to verify connections, check condition of pipes, etc.

Retention: 5 years after completion of test

7. Water Use Restriction and Conservation Records

a. Notices of Restrictions

Notices of water use restrictions imposed because of restrictions on water supply.

Retention: 2 years

b. Variance Records

Records of variances for individual property owners to the watering restrictions.

Retention: Until expiration of variance

c. Water Conservation Records

Records of activities that promote and coordinate the efficient use of water resources; i.e., educational and outreach efforts, reports, etc.

Retention: 5 years, then evaluate for continuing value prior to destruction of records

60.090 WATER AND SEWER TREATMENT SYSTEM RECORDS

Records relating to the treatment of water or sewage.

A. Analytical Reports

Records relating to analysis of samples taken from various locations throughout the system and from raw and processed sources of supply.

1. Bacteriological and Microbiological Analysis

Samples collected for laboratory testing for various contaminants that are naturally present in the environment; includes sewage plant composite sampling records, weekly sewage tests, etc.

Retention: 5 years [40 CFR 141.33]

2. Chemical and Radiological Analysis

Verifications of water quality at various sampling points to determine the presence of chemicals and radionuclides from the decay of natural and manmade deposits and the erosion of natural deposits.

Retention: 10 years [40 CFR 141.33]

3. Lead and Copper Analysis

Tests to determine the levels of lead and copper resulting from the corrosion of household plumbing systems, the erosion of natural deposits and leaching from wood preservatives; includes sampling data and analyses, reports, surveys, letters, evaluations, schedules, state determinations, etc.

Retention: 12 years [40 CFR 141.91]

4. Secondary Contaminants Analysis

Tests to determine the levels of inorganic and volatile organic contaminants.

Retention: 10 years [40 CFR 141.33]

5. Turbidity Analysis

Documentation of analysis of water samples to determine level of cloudiness caused by suspended particles resulting from soil runoff.

Retention: 5 years [40 CFR 141.33]

6. Water Test Standards

Standards for water testing.

Retention: 5 years after superseded

B. Annual Reports

Reports created on annual basis, including national primary drinking water consumer confidence reports delivered to consumers, documenting water and wastewater treatment operations.

Retention: Permanent

C. Corrective Actions – Noncompliance

Documentation of actions to correct violations of primary drinking water regulations.

Retention: 3 years after last action regarding violation [40 CFR 141.33]

D. Discharge Permits and Monitoring

Documentation of pollution and effluent discharged from wastewater treatment facilities and reports submitted in conjunction with permit compliance; permits issued under the Clean Water Act by the Colorado Department of Health or Environmental Protection Agency/ National Pollution Discharge Elimination System (NPDES) for discharge of treated sewage under controlled conditions.

1. Inspection Records

Documentation of annual inspections of wastewater treatment operations to monitor compliance with NPDES permit conditions.

Retention: 5 years

2. Odor Complaints

Retention: 3 years

3. Permits and Supporting Documentation

Retention: 5 years after expiration, cancellation, revocation or denial

E. Industrial Pretreatment Permits

Permits and permit modifications issued to private industries allowing the discharge of specific pollutants under controlled conditions.

Retention: 5 years after expiration, cancellation, revocation or denial

F. Operational Reports

1. Chlorination Reports

Retention: 10 years

2. Filter Plant Logs

Daily information regarding plant operations.

Retention: 5 years

3. Plant Capacity Records

Retention: 2 years

4. Sand Trap Inspections

Retention: Life of sand trap

G. Sanitary Surveys of System

Studies, surveys or reports examining the overall sanitary condition of water and wastewater systems and any communications regarding the sanitary survey.

Retention: 10 years after completion of sanitary survey [40 CFR 141.33]

H. Sludge Application Records

Documentation of placement of approved sites and the surface application of sewage sludge to approved sites.

1. Domestic Septage Application

Retention: 5 years [40 CFR 503.17]

2. Permits and Supporting Documentation

Retention: 5 years after expiration, cancellation, revocation or denial

3. Preparation and Application of Sludge

Records relating to preparation of sewage sludge and the application of sewage sludge to approved sites, including certifications of concentration of pollutants, pathogen requirements and management practices.

Retention: 5 years [40 CFR 503.17]

4. Surface Disposal Site Placement

Records retained by the municipality of sewage sludge placed on surface disposal sites, including name and address of persons who prepare the sludge, name and address of the landowner or lease holder, site location, an explanation of why the sludge must remain on the site for longer than two years before final use or disposal, and an estimate of when final disposal will take place.

Retention: As long as sewage sludge remains on land [40 CFR 503.20]

I. Variances and Exemptions

Retention: 5 years after expiration [40 CFR 141.33]

60.100 WATER SOURCE OF SUPPLY RECORDS

Records pertaining to source of supply of raw (untreated) water, including records relating to adjudication, acquisition, dedication and transfer of water shares and water resources and records relating to the water storage system. **[Important Note:** Water rights records are considered to be essential municipal records, and the State Archives therefore recommends that the "record" copy be retained in paper format.]

A. Acquisition, Sale and Transfer Records

Records relating to acquisition, sale or transfer of water rights, including water acquisition agreements, dedication of water rights by developers to meet development requirements, court proceedings, water decrees, allotment contracts, temporary use permits and other similar transactions.

Retention: Permanent, *except* that water offers are to be retained until accepted or rejected **[Important Note:** Water rights records are considered to be essential municipal records, and the State Archives therefore recommends that the "record" copy be retained in paper format.]

B. Dam Monitoring and Inspection Records

Dam safety inspections and monitoring data and reports.

Retention: Life of dam + 1 year

C. Ditch Records

Records relating to gauging station and visual monitoring of ditch flows and conditions.

Retention: Life of ditch + 1 year

D. River and Stream Records

1. Flow Measurements

Data reported to the State Engineer's Office regarding water flows, collected from recording stations in streams or wells.

Retention: 1 year

2. Hydrologic Data – Rivers and Streams

Raw data collected from field gauging stations established to monitor diverted river and stream flows.

Retention: 5 years, provided that data is compiled into report that is retained permanently

3. Surface Water Rights Records

Augmentation plans, river flow observations, adjudication of priorities of use and similar records relating to surface water rights.

Retention: Permanent [**Important Note**: Water rights records are considered to be essential municipal records, and the State Archives therefore recommends that the "record" copy be retained in paper format.]

E. Underground Water Rights and Supply

Records relating to underground aquifers, water wells and similar records.

Retention: Permanent [**Important Note**: Water rights records are considered to be essential municipal records, and the State Archives therefore recommends that the "record" copy be retained in paper format.]

F. Water Decree Accounting

Records retained as required by the State Engineer or Water Court to track the use of water under a decree.

Retention: Permanent [**Important Note**: Water rights records are considered to be essential municipal records, and the State Archives therefore recommends that the "record" copy be retained in paper format.]

G. Water Rental or Leasing Records

Records relating to water stock assessments and seasonal rental of surplus irrigation water.

Retention: 6 years

H. Water Stock Certificates

Documents issued by water companies as proof of an ownership interest in the company.

Retention: Until sale or transfer of stock

I. Weather Records

1. Weather Modification Records

Records of cloud seeding projects.

Retention: Permanent

2. Weather Observation Records

Reports on weather, river, snow pack and climatological observations affecting water supply.

Retention: Permanent for data compilations and 5 years for raw data

J. Well Records

Records pertaining to location, adjudication, permit applications, drilling, installation, testing, use and abandonment of water wells for municipal use.

Retention: Permanent [**Important Note:** Water rights records are considered to be essential municipal records, and the State Archives therefore recommends that the "record" copy be retained in paper format.]

AA. Video Recordings – Vehicle and Officer Recording Systems

Video recordings and logs made from police vehicle or officer-carried recording systems.

Retention: 30 days, *except* that portions of recordings relating to specific cases may be captured separately and retained as part of case record for life of case record

BB. Weapons and Firearms Records

1. Authorizations to Carry

Records of types of firearms and weapons carried by officers indicating authorization to carry weapons, that the weapon has been checked, and that the officer qualifies to use it.

Retention: 2 years after weapon is no longer in use

2. Weapons Maintenance Records

Records relating to in-house and external maintenance work on weapons.

Retention: 3 years

SCHEDULE NO. 105**RISK MANAGEMENT RECORDS**

General Description: Records relating to risk management functions.

*No record may be destroyed under this Retention Schedule if it is pertinent to any current, pending or anticipated investigation, audit or legal proceeding. **The minimum retention periods specified in this schedule apply to the information contained within the record copy, regardless of the physical format of the record copy (paper, microfilm, electronic).** Each municipality must decide on the physical format for each type of record, ensuring authenticity, readability and accessibility for the entire retention period. **Duplicate Copies:** Retain duplicated copies until no longer needed but not longer than the record copy.*

105.010 INSURANCE RECORDS**A. Certificates of Insurance**

Documentation provided by insurance providers as proof of insurance coverage for specific purposes.

Retention: 6 years after expiration or completion of insured work or action, whichever is later

B. Claim Records

Records of claims for damages by or against the municipality.

1. Claim Records

Statements of claims and completed claim forms.

Retention: 6 years after closure of claim

2. Claim Reports

Summary reports regarding losses and handling and disposition of claims.

Retention: 6 years

C. Insurance Policies

Documents issued by the insurance company to outline liability, theft, fire, accident, property damage and other coverage and risk control standards.

Retention: 6 years after expiration of policy, or after all claims made under policy are settled, whichever is later

105.020 SECURITY RECORDS - MUNICIPAL FACILITIES

A. Automated or Manual Access Control Records

Records generated by automated systems to show entry and exit from secured areas by authorized persons using an electronic badge or similar system to gain entry or exit, or records generated manually to document entry and exit to and from secured areas (i.e., entry and exit log sheets, etc.).

Retention: 2 years

B. Recordings and Images Related to Security – Public Areas

Video or audio recordings, biometric data or images from security or surveillance cameras, scanning systems or audio recording systems in public areas of municipal buildings or grounds. Security setups vary and recordings may be continuous, stop-frame or random use. Recordings or images may capture date and time indexing information.

Retention: 30 days

APPENDIX A

NON-RECORDS

The following types of administrative materials have no public record retention value and may be disposed of as soon as they have served their purpose at the discretion of the custodian:

1. **Catalogs, trade journals and other printed materials** received from other offices, commercial firms or private institutions, which require no action and are not needed for documentary purposes.
2. **Informational or extra copies** of correspondence, completed forms, bulletins, newsletters, etc., prepared for reference and information distribution.
3. **Letters of transmittal** that do not add any information to the transmitted materials.
4. **Miscellaneous memoranda or notices** that do not relate to the functional responsibility of the municipality, such as notices of community affairs, employee meetings, holidays, etc.
5. **Preliminary drafts** of letters, memoranda, reports, worksheets and informal notes that do not represent significant basic steps in the preparation of record documents.
6. **Routing slips, sheets, post-it notes or memos** used to direct the distribution of documents.
7. **Outdated or superseded stocks of publications** kept for supply and hand-out purposes.
8. **Telephone messages** that convey nonpolicy informational messages.
9. **Library or museum material** acquired for reference or exhibition purposes.
10. **Identical duplicate copies** of records.
11. **Notes, tapes or recordings** that have been transcribed.
12. **Temporary or transitory material** with little or no bearing on decision-making.
13. **Training material** from conferences, workshops or other types of external training opportunities.
14. **Unused blank forms** that are obsolete.

GLOSSARY

CCR – Code of Colorado Regulations.

CDPHE – Colorado Department of Public Health and Environment.

CFR – Code of Federal Regulations.

Closed Record – A file unit or records series containing documents on which action has been completed and to which more documents are not likely to be added.

CRS – Colorado Revised Statutes.

Disposition – Actions taken regarding records no longer needed in current office space, including destruction pursuant to an approved records retention schedule or permanent retention of records in paper or other formats.

Duplicate Copies – Non-record copies of documents kept solely for ease of access and reference.

Format – The shape, size, style and general makeup of a particular record.

NERC – North American Electric Reliability Council.

Permanent Records – Records appraised as having sufficient historical or other value to warrant continued preservation by the municipality beyond the time they are needed for administrative, legal or fiscal purposes.

Record Copy – The official and "best" copy of a document retained by the official record custodian.

Retention Period – The minimum length of time that a record must be kept.

Retention Schedule – A document approved by the Colorado State Archives providing authority for the minimum retention periods and final disposition of municipal records.

Series – Physical or intellectual groupings of records; file units or documents arranged according to a filing system or kept together because they relate to a particular subject or function, result from the same activity, document a specific kind of transaction, take a particular physical form, or have some other relationship arising out of their creation, receipt or use.

USC – United States Code.

METHODS OF RECORD DESTRUCTION

There are four methods that are generally acceptable for destroying records. However, it is important to note that, when dealing with confidential information such as law enforcement and personnel information, these types of records must be destroyed in a secure manner so as to prevent them from being reconstructed by unauthorized parties.

1. **Shred:** This method is most suited for the security destruction of confidential records such as the ones mentioned above.
2. **Burn:** This method is most likely confined to the rural parts of the state where unregulated burning is still allowed.
3. **Landfill:** This method requires that the records be buried in a trench 3 to 4 feet below the surface of the landfill and immediately covered over to prevent the wind from blowing records about. It is recommended that, when possible, once the records are placed in the trench, they be sprayed with water to facilitate a more rapid decomposition.
4. **Recycle:** This method is desirable for nonconfidential records where possible. It promotes good conservation and reuse of paper resources.

Remember to check whether the records you want to destroy are the subject of a legal hold order!

Municipalities should keep a record of the records destroyed, regardless of whether destruction is coordinated at a centralized or decentralized level, to be able to show that destruction took place in the normal course of business. A log or form used to keep track of records destruction should include the following information at a minimum:

1. Date of destruction.
2. Destruction method.
3. Volume of records destroyed, usually in estimated cubic feet.
4. Records descriptions, such as the types and date ranges of the records destroyed [for instance: Election records (2005) or project files (1979—1980)] or a listing of the specific file folder titles, depending on the level of tracking the municipality wants to do.
5. Who authorized, supervised and/or accomplished the records destruction.
6. Retention Schedule reference numbers.

APPENDIX F

FREQUENTLY ASKED QUESTIONS

Q: Because we have plenty of storage space, I'm having difficulty convincing others to participate in signing up for approval to destroy records according to the retention schedule. How do I, as town clerk, get them to move forward on this?

A: Contact the State Archivist and ask him for help dealing with those who do not want to participate. He can explain the advantages for adopting the manual and the potential issues that may arise should the community not have an approved records retention policy.

Q: What if we want to keep something longer than the manual specifies?

A: You may, but you place your community at risk of additional litigation costs should the municipality be sued in regard to a matter related to the records that are retained longer than legally needed. Once you become aware of possible litigation, it is too late to get rid of records that you should have destroyed previously since the rule is "if you still have them, they are discoverable."

Q: Do we need a local exception to keep something longer than the manual specifies?

A: A local exception must be approved for you to retain something for a shorter time period than the manual specifies and is not required to keep something longer than the specified retention period. However, it is important to document internally that the municipality's policy is for a longer retention period.

Q: What is the best method of destruction?

A: Refer to Appendix E of this manual for an overview of destruction options. The destruction method depends on the content of the records. Any information with personal identifiers (name, address, social security number or driver's license number, etc.) and any confidential or proprietary information must be rendered completely unreadable. For this reason, cross-cut shredding is preferred over strip shredding. Electronic records must be totally removed (not just "deleted") from any electronic storage media (CDs, PC hard drives, portable devices such as a PDA or Blackberry, etc.) before disposal of the media at auction or recycling.

Q: Why can we not burn records if they are approved for destruction?

A: You may if the burning is allowed in your part of the state. It is important to note that the records need to be totally obliterated if you use this method of destruction.

Q: If we use a commercial paper recycler to shred our records, how can we be sure they actually destroyed the records so that they are no longer legible?

A: Ask the recycler for a written statement of destruction that indicates your specific records were properly destroyed.

Q: If we adopt the retention schedule, will we continue to receive annual authorizations to destroy records from the State Archivist?

A: Annual authorizations and the attached pink records destruction certificate are sent only to those municipalities with individual records retention schedules and not to those municipalities that have adopted the Colorado Municipal Records Retention Schedule. You will need to establish an internal process to initiate and track records destruction.

APPENDIX F — FREQUENTLY ASKED QUESTIONS (Cont'd)

Q: Do I have to document the records I destroy under authority of the retention schedule?

A: You do not need to report the records destruction to the State Archives as was the case with any individual retention schedule your municipality may have had in place in the past. However, it is recommended that you keep a record, such as a form or log, documenting records destruction dates, types of records destroyed, required internal authorizations, and approximate volume of records destroyed to demonstrate compliance with the records retention schedule and destruction of the records in the normal course of business.

Q: How do I go about implementing the retention schedule?

A: In general, once your municipality adopts the retention schedule, it applies to all departments. Implementation may be different for each organization. However, the key is often ongoing communication, training and a clear assignment of responsibilities and authority. To get started, think about: (1) establishing internal processes and central controls to initiate, track, authorize and document records destruction; (2) monitoring compliance if you have a decentralized retention and destruction process; (3) establishing internal processes to inform the organization about annual revisions to the retention schedule; and (4) establishing an effective litigation hold process.

Q: Does the retention schedule cover electronic records?

A: As stated in the introduction and at the beginning of each section, the retention schedule is media neutral and covers all records regardless of the storage format (paper, electronic, microfilm, etc.). Retention and destruction decisions must be based on the content of the records rather than the storage format.

Q: Can other types of organizations adopt the Colorado Municipal Records Retention Schedule?

A: The retention schedule is specifically for Colorado municipalities. Other types of organizations may use it as an informational tool to help establish their own records retention schedules. Keep in mind that legal and practical requirements may be different for other types of organizations.

Q: Can I destroy paper records after they are scanned?

A: The answer is "yes," with some conditions. Under the Colorado Uniform Electronic Transactions Act, electronic records are as good as paper records in court and as evidence of transactions. However, before you destroy the paper, you need to make sure that the electronic records will be readable and accessible for the entire retention period and that they will be accepted as authentic records in lieu of the originals. To do this, you must establish and follow a migration plan and craft and follow policies and procedures demonstrating that the electronic recordkeeping system preserves the integrity of records. The CMRRS applies to the record copy, whether it is in paper or electronic format. You must decide the appropriate format. See also *Appendix G, Guidelines for Long-Term Preservation of Records*.

Q: What about retention of municipal records that are hosted by third-party providers?

A: This is an emerging issue for records managers. In general, you should ensure that the contract between the municipality and the third-party host covers (at a minimum): (1) how you will get the records back if the host goes out of business or the contract is terminated; (2) how the information is secured to prevent identity theft or breaches of privacy; (3) how information eligible for destruction under the Records Retention Schedule is to be removed; and (4) who has (and does not have) access to the records.

Q: Where can I get more help with records management questions?

A: The 2010 Colorado Municipal Clerks Association (CMCA) publication titled *Managing Municipal Records in Colorado: A RIM-ERM Toolkit* is a good source of information. It is available through CMCA. (Contact information is listed on the CMCA website at www.cmca.gen.co.us.)

APPENDIX G

GUIDELINES FOR **PRESERVATION OF RECORDS** <Amended 8/16>

"Records" are documents that are set aside as evidence and protected from alteration or change. All records – but not all documents – have content, structure and context. Storing a record is not enough to capture all three of those elements. The key is to adopt policies, procedures and guidelines to ensure that the information contained in the record is **accessible** and **readable** for the entire retention period and that it is viewed and understood in **context**.

How should you retain records with lengthy retention periods? What should you do with the paper after scanning records? How do you ensure future accessibility and readability of records, especially permanent records? These are a few of the most common questions relating to long-term preservation of records. Following is a summary of some of the issues you should consider before making decisions on long-term preservation of records.

STATE ARCHIVES POLICY ON STORING LOCAL GOVERNMENT RECORDS <Added 8/16>

EFFECTIVE JULY 1, 2015, THE COLORADO STATE ARCHIVES IMPLEMENTED A NEW POLICY STATING THAT BACKUPS OF PERMANENT LOCAL GOVERNMENT RECORDS ON DIGITAL STORAGE MEDIA WILL NO LONGER BE ACCEPTED FOR SECURITY STORAGE AT THAT FACILITY AND THAT **MICROFILM** WILL NOW BE THE REQUIRED STORAGE MEDIA. THE REASON FOR THIS POLICY CHANGE IS THAT **THERE CAN BE NO GUARANTEE OR EXPECTATION THAT DIGITALLY STORED RECORDS WILL REMAIN READABLE AND ACCESSIBLE** FOR THE LONG TERM DUE TO TECHNOLOGICAL OBSOLESCENCE. <Added 8/16>

THE STATE ARCHIVES RECOMMENDS THAT LOCAL GOVERNMENTS DEVELOP THEIR OWN SECURE OFFSITE STORAGE FOR PROTECTED STORAGE OF ONE OR MORE DUPLICATE VERSIONS OF RECORDS THAT NEED TO BE KEPT LONGER THAN 10 YEARS OR THAT LOCAL GOVERNMENTS PARTNER TO EXCHANGE STORAGE SERVICES. <Added 8/16>

Paper and Electronic Preservation

There is no foolproof, single step for permanent preservation of electronic records. In addition, electronic storage media is inherently unstable, and computer hardware and software become obsolete quickly due to technological obsolescence.

For paper records, *preservation* means placing the document into a managed filing system from which it can be retrieved for the duration of the retention period. For electronic records, this means transferring an electronic document from an operational environment into a managed recordkeeping system **and** renewing, copying to new media or transferring to new systems¹ as needed to ensure accessibility and readability in the appropriate context for the entire retention period.

Long-term preservation of archival information in digital format may **not** be practical because of the rapid obsolescence of computer hardware and software. Preservation of records with long retention periods solely in digital format should be considered **only** if:

1. The value of the data and the benefits of digital preservation are clear and substantial.
2. Preservation in a fixed form such as paper or microfilm is not an option because a digital format is needed to support significant business requirements.
3. Conversion of the data to static form will diminish its value or make it unusable.
4. The information is born digital.

APPENDIX G — GUIDELINES FOR LONG-TERM PRESERVATION (Cont'd)

Cost

The cost for data migration can be more than 2.5 times the original cost of data creation and capture. For permanent electronic records, data migration **must** be a perpetual – and potentially costly – commitment. Managing electronic records by disposing of obsolete records in accordance with the retention schedule is more cost-effective than buying more electronic storage to migrate everything or losing in a legal proceeding due to poor recordkeeping. Some argue that "storage is cheap." They may not realize the potential cost of unmanaged electronic records in lost productivity, future migrations or legal proceedings.

¹ **Media renewal** is copying from one type of storage medium to the same type without any changes to the records. **Media copying** is the copying or reformatting of records from one type of storage medium to another, resulting in minor changes to the records because of the way data is recorded to different media and requiring verification by means of comparing a sampling of the old and newly copied records. **Media transfer** and **migration** refer to a complete change of the file management system upon moving from one software platform or technology to another, requiring bit-by-bit validation of each transferred record.

Conversion and Migration

Plan to convert electronic documents while newer versions of the software allow backward compatibility; i.e., within several generations of versions.

Any system **must** have the capability of copying, reformatting or transferring records across media and through system technical changes.

Remember that when electronic records are copied or transferred, the content, metadata and audit trails **must** all be preserved.

Plan ahead for what will be involved in converting/migrating specific vital electronic records to new systems or storage media, how the conversion/migration will be tested and when it is to be done. Consider putting together a **written conversion and migration plan** that is reviewed by legal counsel, information technology and official records custodians. Plan on migrating electronic records if:

1. The scheduled destruction date is more than **five years** from the initial installation date or last major upgrade of the hardware or software that is needed to read, process or store the record.
2. The retention period is longer than **10 years** from the date the records were created.
3. The usability will be affected by replacement, upgrades or other changes to the hardware or software before the end of the retention period.

It **may** be cheaper to keep legacy systems running to access and use infrequently referenced records than it is to move (migrate) those records to a new system.

Storage Media

If the retention period is longer than **10 years**, consider the long-term cost and requirements for maintaining the record in electronic format for the entire retention period compared with the cost to keep it in paper or microfilm form.

With reasonable care, good quality **paper** can last for more than 100 years. Absent a disaster, paper deteriorates slowly, leaving time to take action before information is lost. Storage in paper form may sometimes be the cheapest storage solution and may make sense for **low reference records that have retention periods longer than 10 years**.

Microfilm that meets industry standards and has reasonable care can also last more than 100 years. There are warning signs of deterioration and time to recopy before images are lost. Microfilm is eye readable and widely accepted for archival storage of records. It may make sense for **preservation and disaster recovery for low reference records that have retention periods longer than 10 years**.

APPENDIX G — GUIDELINES FOR LONG-TERM PRESERVATION (Cont'd)

Without migration, **computer-based records** can be expected to last as little as five years (the average service life of hardware and software required to read and process electronic records) and no more than 20 years. There are no warning signs of impending failure. Digitization of records makes the most sense for **records that are needed frequently, those that are shared by simultaneous users or those requiring ease of access.** An electronic format may not be appropriate for the entire retention period and for long-term archival storage unless a paper or microfilm version is also retained for the entire retention period.

Regardless of the storage media used, **verify the accessibility and readability of the content every 5 to 10 years** to ensure that the data has not been compromised.

Records Destruction

Whether you retain records in paper, microfilm or electronic form, you **must** have the ability to dispose of records at the end of the records retention period.

You **must** also have the ability to place a hold on records destruction in the event of a legal proceeding **regardless of the records storage format.**

Metadata

To ensure the integrity of electronic records, collect and maintain indexing information and the following types of metadata (information about the records):

1. Information about restrictions on accessibility.
2. Information on how long the record must be kept and what triggers its destruction; i.e., end of year.
3. Security and encryption information.
4. Information documenting all actions; i.e., revisions made, audit trails.
5. Information on the software versions and technical platforms used to create and store the record.
6. Hardware and software documentation manuals created and maintained during installation of a system used to create and store the record.

Storage and Formats

To maintain integrity of the record, preservation **must** be in a recordkeeping system that ensures the integrity of the records and the associated metadata through storage on a non-erasable medium or using controls that provide the same level of protection.

Using formats that are widely used makes it more likely that you will be able to access and read the records if the company that owns the patents on the format goes out of business or stops supporting the format. [As of October 2009, the leading formats are .pdf and .tiff.]

Use storage media that is mainstream, widely used and compliant with industry standards. Avoid being on the "leading edge" or using obsolete technologies.

Quality Controls

Always keep the hard copy (paper or microfilm) sources for imaged records **at least** until the images are verified during the quality control process. **Never** just scan and shred.

APPENDIX G — GUIDELINES FOR LONG-TERM PRESERVATION (Cont'd)

Disaster Recovery

You **must** be able to guarantee an ability to support full recovery of records in the event of a disaster.

Guideline for What to Keep on Paper

Individual municipalities must determine which version is the "record" to be retained for the entire duration of the retention period and which versions are "convenience copies" that are to be kept until no longer needed for the purpose for which they were created. In many cases, an electronic version may serve as the "record copy." In a few cases, retention of a paper version as the "record copy" is recommended for long-term preservation. This guideline may change over time as standards for long-term preservation of APPENDIX G — GUIDELINES FOR LONG-TERM PRESERVATION (Cont'd)

electronic records are developed and widely accepted. The "record copy" of many records may be retained in either paper or electronic format, and electronic format is always acceptable for convenience copies. In many cases, electronic-only storage for the "record copy" is suitable as long as accepted standards and best practices are followed to ensure adequate system and procedural documentation, frequent assessments of electronically stored records and the storage media, and periodic and scheduled media renewal, copying, transfer and/or migration.

"Convenience" copies of the following essential and historical records may be stored in either paper or electronic format for frequent reference and information-sharing purposes. However, due to the inherent fragility of electronic records, technological obsolescence issues and the ongoing importance of certain records, the State Archives recommends that the "record copy" of the following types of essential or historical records should be retained in protected storage in paper format to ensure continued accessibility and readability for the foreseeable future:

1. Records documenting the legal status of the municipality, including incorporation papers and current and previous city or town charters.
2. Minutes of the governing body.
3. Records relating to the municipality's water rights.
4. Historical records (if any) older than 1900.
